

**PRO** **ACTIV**<sup>®</sup>

THE PEDELEC FOR PEOPLE OF SHORT STATURE

***PED-E***

## PRODUCT DESCRIPTION:

The **PED-E** is ideal for those of short stature due to its individual frame geometry.

In addition to 20" we also offer 18" & 16" wheels, which are ideally suited to those measuring approx. 90 cm to 145 cm in height.

The soft-start and powerful Z15 motor from neodrives provides valuable help with setting off thanks to electric pushing aid.

The cables are routed inside the frame, which emphasises the linear design of the bike.

Of course, we did not skimp on the practical details: the mudguards, luggage rack, lighting system and side stands leave nothing to be desired.

## TECHNICAL SPECIFICATIONS:

- » Pedal assistance: up to 25 km/h
- » Motor: Neodrives hub motor Z15  
250 W | 12/40 Nm
- » Rechargeable battery: Neodrives Z15
